

***BELL CHOOSES THE ACK MODEL E-04 406/121.5 ELT  
FOR IT'S NEW 505 JET RANGER X MODEL.***

*ACK Technologies working with Bell Helicopter and Transport Canada have successfully qualified our Lithium battery powered model E-04 ELT in the new Bell 505 Jet Ranger X light turbine helicopter.*

*Chosen for its light weight, small remote panel size, along with its affordable cost the Model E-04 has proven to be the right solution to comply with new rigid FAA and Transport Canada requirement for Lithium battery powered devices in aircraft undergoing new certification.*
